AXE Equipment The Dominator

Model SW-40G-HT

Since 1984 The Dominator has been satisfying customers worldwide. Its 28"x 40" working capacity and 1000 lb weight capacity will accommodate a host of truck, passenger car, and industrial applications. Standard equipment on the Dominator SW-40 features pneumatic door clamps, built in hot tank, and a powerful 7.5 hp pump motor flowing 100 gallons per minute of hot cleaning solutions for fast and efficient cleaning.

The Dominator like all AXE Spraywashers incorporates and spring loaded Lay down Door that makes loading and unloading a snap, and keeps the shop floor much cleaner and drier.

If gas heat is your preference you will like our exclusive state of the art power gas burners. Our power gas burner design puts all the components outside the fire box and away from heat. Components last longer, service is easier and maintenance cost reduced, Large heat exchanger allow for quick heat up times and fast heat recovery times.

Full 360 degree manifold is constructed from 2" tubing and designed with radius elbows for high performance water flow. The powerful 7.5 hp pump pushes 100 gallon per minute of hot water through 20 perfectly placed nozzles for fast and efficient cleaning, and in order to keep a consistent and long running drive system AXE Equipment incorporates a gear driven drive system with a built in safety clutch.
